    - Project-Route student and worked on a real-time application to implement the GTSS theory.
- **Chhotubhai Gopalbhai Patel Institute of Technology**
  - *B.Tech in Computer Engineering*
    - 4 × MYSY Scholarship winner.

## PROFESSIONAL EXPERIENCE

---

- **React JS Developer** Sep 2023 - Dec 2024  
*PetDrifts* Regina, Canada
  - Participated in agile development processes, including sprint planning, stand-up meetings, and retrospectives.
  - Enhanced code base quality by providing documentation, including code comments and technical guides, while ensuring adherence to coding standards and best practices through code reviews and consistency enforcement.
- **Teaching Assistant** May 2023 - Dec 2023  
*Department of Computer Science, University of Regina* Regina, Canada
  - Grading assignments, and exams, leading lab sessions, and helping the course instructor with class-related tasks.
- **React JS Developer** Jan 2019 - Jul 2022  
*White Orange Software* Surat, India
  - Participated in agile development processes, including sprint planning, stand-up meetings, and retrospectives.
  - Enhanced codebase quality by providing documentation, including code comments and technical guides, while ensuring adherence to coding standards and best practices through code reviews and consistency enforcement.

## PROJECTS

---

- **Nurse Conekt** May 2022 - Jun 2022  
*Created a Job portal platform for connection and content sharing for nurses and recruiters.* Regina, Canada
  - Created a web platform utilizing React and a mobile app with React Native, supported by a backend REST API built using Node.js, Express, and MongoDB for comprehensive functionality and seamless integration.
- **DIAMSell** Jan 2021 - Dec 2021  
*Empowering the Diamond Industry with Seamless Business-to-Business Interactions.* Surat, India
  - I led the end-to-end development of the DIAMSell web application, overseeing everything from conceptualization to deployment. I utilized the powerful MERN stack to ensure comprehensive development and seamless deployment.
- **VBUYZ Dashboard** Jan 2022 - Apr 2022  
*A Real-time dashboard for monitoring bussiness activity of e-commerce company.* Surat, India
  - Developed an extensive web-based dashboard utilizing React and D3.js, incorporating advanced features and visualizations to deliver an interactive and user-friendly experience for data analysis and presentation.
